Pump Station Failure

Water Conservation Requested This Evening

April 8, 2024, 3:00 PM - Mohawk Valley Water Authority maintenance crews are working to make temporary repairs to a pump station. The repair is estimated to take several days. Until the repairs are made, the MVWA is requesting that customers conserve water (if possible) and suspend non-essential uses such as lawn irrigation or filling swimming pools.

This pump station serves parts of Marcy, Deerfield, and the Town of Trenton. Customers at higher elevations in the affected area may experience lower water pressures this evening. There is NO boil water advisory at this time.
